KOREA CHRISTIAN INTERNATIONAL SCHOOL

"For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."

~~ 2 TIMOTHY 1:7~~

This serves as a powerful reminder that God equips believers with a spirit of power love, and self-control (or a sound mind), rather than fear or timidity.

Spirit Week

This year's Spirit Week was filled with creativity, laughter, and impressive performances.

According to Hayoung teacher, the event was a complete success. "I would rate this event a solid 10 out of 10," she said. She highlighted the high participation rate as a key factor in creating such a lively atmosphere.

One of the standout moments of the week was Literacy Day, where students showcased their acting skills through class performances. Hayoung teacher explained, "It was actually difficult to choose the winners this time because everyone did such an amazing job."

Students also shared their thoughts on the event. Aiden, the class leader, rated Spirit Week 9 out of 10. He especially enjoyed the themed days, saying, "Trying foods on International Day was a great experience."

However, preparing for the performances was not always easy. Aiden mentioned that teamwork was sometimes challenging. "The hardest part was when opinions were divided and cooperation failed."

Junkyu, another G7 class leader stated that he would rate this event a 10 out of 10 because he learned a lot about teamwork. The hardest part for him was when his class' team spirit was weak. Some members didn't participated much, and had a hard time cooperating. Despite these challenges, many students found the experience rewarding.

As Spirit Week comes to an end, students leave with everlasting memories, stronger friendships, and a renewed sense of school spirit.

One day field trip

After our mid-term exams, we went on a one-day field trip to Seodaemun Prison History Hall, Kim Koo Museum & Library, and the National Memorial of the Korean Provisional Government. The purpose of this trip was to relax after exams and learn about our hurtful past.

Samuel Lee, said that he would rate this experience a 9 out of 10. He said that this trip was interesting and learned about Kim Koo and how he helped Korea become independent. He also learned about how people were treated in Seodaemun Prison History Hall during that time. He stated that this trip made history feel more real.

Haran stated that she would rate this experience a 10 out of 10 because she learned more about Korean history. She explained that if people didn't sacrifice during Korea independence, our present Korea wouldn't have existed. She also said that she liked that food we ate.

In conclusion, the field trip was both fun and meaningful. We created good memories with our classmates. We will keep this experience into our hearts.

Volunteer Day

We had our 2026 Volunteer day recently. This experience was very memorable to us since it was not only just about picking up trash, but to be a person with morality in this world. We were divided into teams to pick up trash and each student will have an evergreen memory of this event with their teams. Teacher Paj's team took the crown by collecting 20 bags of trash and walking over 13.2 km. Surely a warm applause is needed for their victory. To remind you readers, Volunteer Day was not just a competition but the unity of our students who were doing a helpful service for our community. One student, Yohan, said that he loved this day since he felt like he was following God's footsteps and that helped his mind be at ease. He also stated that no matter how good a place it is, we could still need some help and that's why us Christians help with that goal to be achieved by following the words of our almighty Father. In conclusion, this day was not just an ordinary day, it was a day to cooperate as a team, and help our society.

Sports Day

The annual Sports Day at our school was held last month with great excitement and enthusiasm. From early in the morning, students gathered at the YMCA wearing class uniforms and cheering for their teammates. Teachers also joined the events to support and encourage the students. As the competitions started, the field was filled with energy, laughter, and loud applause. Sports Day was not only a chance for students to show their athletic abilities, but also an opportunity to build teamwork, confidence, and friendships.

G8 Allysa, the girl MVP of the day, stated that she would rate the event an 8 out of 10. She also said that this event was one of the most memorable event for her.

Yubin teacher, a teacher that participated, said that she would rate this year's sports day an 8 out of 10. For her, it was a valuable time to mingle with students. Although Sports Day was engaging, she deeply encourages the next Sports Days to include more sports that girls can play with the boys.

G7 Junkyu said that he would rate this event a 9 out of 10. This was because it was overall fun, but he said that he got sunburned badly. He wanted to experience Sports Day again.

Overall, this year's Sports Day was a memorable and successful event for everyone involved. The true meaning of the day was learning the importance of teamwork, effort, and sportsmanship. Students encouraged one another and enjoyed participating in the different activities together. By the end of the day, everyone was tired but happy, carrying unforgettable memories with them. Sports Day brought our school community closer together and reminded us that having fun and doing our best are more important than simply winning. Everyone is already excited and looking forward to next year's event.
